SUMMARY

I am a student from Universitas Pembangunan Nasional Veteran Jakarta, specializing in Front-End Development, with a robust academic background and extensive practical experience. Currently pursuing a degree in Information Systems, I am also actively engaged in an organization and have been recognized for funding from the Student Creativity Program (PKM). I am proficient in various web development tools such as HTML, JavaScript, PHP, and React JS, and have successfully managed numerous projects, both independently and within a team. I possess excellent communication skills and exceptional adaptability, while also consistently striving to deliver outstanding performances.
